Edition 03.05.2023

Errors and amendments excepted. Our General Terms and Conditions are effective. / WEEE-Reg.-No. DE 69718127

DESIGN

CONSTRUCTIVE DESIGN

All the materials used correspond to the requirements according to RAL-GZ 430/3

Single armchair, metal base frame, form foam

Seat upholstery structure: rubber straps, polystyrene foam VW 40, Diolen

Back upholstery structure: form foam, Diolen

UPHOLSTERY FIRM

With a firm upholstery you do not sink very deep into the upholstery but sit „on the sofa“. The ridge of covers is avoided extensively by constructive measures (among others prestressed upholstery). Drawings e.g. at curves, gathers are according to the construction or the design. The creases are uneven due to the material

BACK TENSIONING SECTIONS

All back tensioning sections are supplied as standard with the original cover.

LEGS

Metal rotary plate optionally available in:

- nickel satined (stainless steel optics)
- powder-coated structural black mat

5-arm-rotary spray optionally available in:

- nickel satined (stainless steel optics)
- powder-coated structural black mat

The armchair can be turned up to 360°.

INDICATIONS OF DIMENSIONS AND REQUIREMENTS

All the values given are approximate values: dimensions in centimetres, material requirements in metres, leather requirements in square metres.

COMBINATION OF COVERING MATERIALS

If desired with this model two different covers can be combined.

Here must be indicated the respectively desired covering material with cover part 1 and cover part 2.

With combination of two covering materials different in prices the higher price category will be invoiced as standard.

Fabric- and leather requirement of each cover part on request.

▨ cover part 1: corpus inside (back, seat, armrest, base)

■ cover part 2: corpus outside (tensioning sections)

SEAM

Depending on the model, the seam on leather covers may be different from fabric covers, especially on fitted items. Decorative leather seam (as double lapped felling or double seams) may be omitted depending on the model according to suitability of the fabric covering material.

This model is only worked with selvedge seam.

COVERING MATERIALS

You may find the information concerning the specific properties of the covering materials on the sample labels.

Alternative covers of the wide upholstery covering material collection (**exception N-NATURO**) are possible as custom-made product. Therefor an extra charge of all in 20% is valid for fabric and leather.

Edition 03.05.2023

Errors and amendments excepted. Our General Terms and Conditions are effective.

CONTRAST STITCHING

The production is carried out either **with contrast stitching** or with a **thread (tone on tone)** matching the leather in terms of colour.

CONTRAST STITCHING

With leather covers and with fabric-leather-combinations a **contrast thread colour** must be explicitly chosen.

With bicoloured covers the thread colour will be worked on the front and on the rear side.

Unfortunately with fabric and microfiber covers without leather part a processing with contrast stitching is not possible.

Exception fabric 13-BISON:

These fabric can be produced with contrast stitching. A contrast thread colour must be explicitly chosen.

THREAD TONE ON TONE

The model is worked with a thread matching the cover in terms of colour (tone on tone).

With bicoloured covers and with fabric-leather-combinations the matching thread will be automatically worked on the front and on the rear side.
